

How Quietly

- Without talking
- Using whisper voices
- So only people within 3 feet of you can hear you (3-foot voices)
- With silent feet
- Talking only to the people right beside you (or at your table)
- Without scraping your chair or desk
- Silently
- Without making a noise
- So quietly that our principal will wonder if the class is even in the room

How Quickly

- Let's see who can be the first to...
- Which table group will be the first to...
- By the time I count to 10
- When I say go. Ready, go!
- In one minute
- In 5 seconds or less
- Faster than the class record (my second period class, the other 5th grade)
- Before the bell rings (secondary)
- By 11:03
- On my count—one (students do step 1), two (students do step 2), three (students do step 3)
- Before the music stops (elementary)
- Faster than me
